

**"Print Audit has been very user friendly and easy to maintain.
It has paid for itself many times over!"**

Aaron Babcock, Architect - Hidell Associates Architects

The Print Management Company

Print Audit 6 for Architects and Engineers

Architectural and Engineering firms that are still trying to track and bill for printing manually could be missing up to 80% of recoverable costs.

- **Turn your print cost center into a revenue center.**
- **Automate your customer billing process.**

PRINT AUDIT 6 FOR ARCHITECTS AND ENGINEERS

For many of today's architecture and engineering firms, printing and plotting remains an unnecessary cost center. Firms that are automatically tracking and billing for all of their document creation expenses are saving countless hours of time, and recapturing thousands of dollars per month in printing and plotting costs.

AUTOMATE EVERY STEP OF YOUR CHARGEBACK PROCESS:

- ✓ Allows you to track and assign a client number and project code to every print or plot produced in your environment.
- ✓ Pays for itself in as little as 6 weeks.
- ✓ Simplifies your client billing procedures.
- ✓ Installs in a matter of minutes.
- ✓ Tracks copying, scanning and faxing with Print Audit's optional Copy Audit solution.
- ✓ Includes free, unlimited technical support.

"Well designed, easy to use and flexible."

- Cadalyst magazine

Print Audit is the easiest and most accurate print management solution in the world, with:

- 100's of Architecture and Engineering clients.
- 200+ customer testimonials.
- \$150 million in recovered costs worldwide since 1999.

Supports all popular CAD Systems, including:

- Autodesk AutoCAD
- Bentley Microstation

- ✓ Works with accounting programs such as QuickBooks, Simply Accounting and more.

"We have installed Print Audit on all production staff computers which resulted in Print Audit paying for itself many times over as well as allowing us to recover approximately \$25,000 per month in printing fees."

Michael Brown, Architect - Riddell Kurczaba
